vaishusapkal.16@gmail.com

OBJECTIVE

Enthusiastic Python Developer, AI ML Engineer with expertise in Python, Machine learning, MYSQL, HTML, CSS. Passionate about user experience and designs. Seeking opportunities to collaborate on innovative projects and continuously enhance technical skills.

EDUCATION

B.Tech in Computer Engineering

College Of Engineering , Phaltan

2023-2026

Diploma in Computer Engineering

Government Polytechnic Karad

2021-2023

Percentage : 78.63 %

SKILLS

Front-end :

HTML ,CSS

Programming Languages :

Python

Languages :

English, Hindi ,Marathi

Soft Skills :

Teamwork , Communication , Project Management

Hobbies :

Playing, reading

EXPERIENCE :

1. IOT Intern

July 2022 – August 2022

Softtron Technologies , Kolhapur

- Enhanced skills in Arduino software and the sensors used in day to day life .
- Worked on coding , building models of the developed code using hardwares , etc.
- Contributed the coding skills and hardware knowledge.

PROJECTS :

1. Calories burned detection system :

Tools and technologies: Python, Machine Learning, Pandas, Scikit-learn, Jupyter Notebook

Description : Developed a machine learning model to predict calories burned during physical activity using user data such as age, gender, height, weight, and heart rate, The system preprocesses data, trains regression models evaluates performance to ensure accuracy.
